## Presque Isle Courses 2015

### Week-long Courses in Presque Isle: July 6, 7, 8, 9 & 10, 2015

#### EDSN 528: Educating Students with ADD/ADHD

With Stephen York

Course participants will apply their learning to help students with ADD/ADHD to become successful, self-reliant, life-long learners and citizens within the classroom, home, and community. Topics examined will include differentiated instruction, multiple intelligences, and brain-research. Educators will participate in a professional learning cohort as they pursue this inquiry.

#### EDEN 528: Teaching Children's Literature: An Arts Approach

With Catherine Ring

Integrating the arts and literature fosters the active participation and in-depth understanding that it is as important for practicing teachers as it is for elementary-school children. Combined with an emphasis on multi-cultural and international literature, the focus on the aesthetic and artistic aspects of literature, music, the visual arts and drama promotes culturally responsive and researched-based teaching, making reading more inviting to diverse groups with varied learning styles.
